I'll see what I can do.

Has more to do with the change in freight options.

Sorry, Aaron. They already submitted the approval on our end for the original amount and aren't willing to resubmit it. Can you negotiate with the company? It seems odd to all of a sudden increase your price by \$350 once someone moves to finalize an order.

Hey Angelina,

I'm about to send the application back to the City Clerk to fund the festival lighting, but I think we need to add an additional \$350 to it for freight. I found out that the bulbs wouldn't get here from China until the end of July, but they can instead be air-freighted to get here first week of June.

The total request would be \$5,790.59 + \$350 freight = \$6,140.59.  
A revised invoice is in the process of being sent to me.

Please advise and let me know the best way to proceed with the app.

By the way, DWP should be installing the infrastructure for us to plug into including an off switch this week.

Thanks,  
Aaron
